Sales and Engineer Support Service

Our Mission

- **We are Professional Sales & Engineer forces firm.**
- **We can contribute to the success for the companies in Japanese market.**
- **We can provide professional service by reasonable price with our original sales promotion method of “High-Touch Selling” and “Inside Sales ”**

Our Feature & Sales Method

High Technology Bilingual Resources

We can provide high technology and bilingual resources that experienced in Cisco and so on such as high technology companies.

High Touch Selling

One of our market development methods. Without relying on resellers, we find opportunities directly in order to catch the current market situation and to reflect to the marketing.

Inside Sales

Outbound call by real sales persons that have technology knowledge and experience.
It can find real prospects.

Our Service application example

want to advance to big Japanese market, but unfortunately give it up due to budget issue.

**had distributor and reseller in Japan.
but revenue doesn't grow as expected. the
support for the reseller far from HQ is not easy.**

**want to have a brunch in Japan in order to
increase revenue. but finding proper person and
getting budget is not easy.**

We can provide your branch in Japan

We can provide experienced sales and engineer.

**We can provide services depending on your
budget.**
